

HOTSHOTS BLIND DRAFT RULEBOOK

This is a simple lucky draw process to ensure teams are made equally and randomly. However, this simple lucky draw process comes with a slight twist: there are 6 power-up cards which will help you select, block, or save the players you want.

■ PHASE 1: THE SECRET CARD DRAW (FCFS)

1. The Admin will open the live draft room and click "**Make Selection Live**".
2. Tap your dedicated Captain's Link shared in your private chat.
3. You will see 6 face-down cards. Click **only 1** to claim it.
4. Your card remains **100% secret** from all other captains until it is played!

■ PHASE 2: THE 3-ROUND DRAFT BOARD

1. The board has **12 face-down player cards** (numbered 1 to 12).
2. **The WhatsApp Chat Pick:** In each of the 3 rounds, captains will select one number between 1 and 12 (1 pick per team, per round).
3. The host will enter your chosen number on the console.
4. **Pre-Round Action Phase:** Before a card number is revealed, the host triggers a 15-second countdown. During this window, you must declare in chat if you want to play your secret power-up card!
5. If no power-up is played, the card is flipped, and that player is revealed and assigned to your roster.

■ HOW AND WHEN TO USE YOUR POWER-UPS

Power-up	Icon	Rules / Action	Constraint / Timing
Steal	■	Take a revealed player from an opponent's team and swap them with one of yours.	Pre-round phase of Round 1 or 2 only . Locked in Round 3.
Shield	■■	Protects a specific player on your team from being stolen by a Steal card.	Pre-round phase of any round.
Spyglass	■	Peek at a card number. If you like the player, draft them directly!	Pre-round phase before picking.
DeckSwap	■	Reroll: Discard one player from your team back to the deck and draw a new random replacement.	Pre-round phase of any round.
Block	■	Prevents a captain of your choice from picking first, pushing their pick to the end.	Pre-round phase of any round.
Joker	■	Direct Draft: Automatically draws 3 eligible players based on grade tier constraints. Choose exactly 1 to draft directly.	Pre-round phase of any round.
